

A JOURNEY ROUND THE WORLD

Margarete Lazar

Emmerich Rössl

Idee und Ziel

- Erstellung eines tragfähigen Planungskonzeptes für die Erteilung von Fremdsprachenunterricht nach dem Lehrplan 2008 der Allgemeinen Sonderschule

Zielgruppe

- Schüler und SchülerInnen mit sonderpädagogischem Förderbedarf der siebenten und achten Schulstufe, die entweder an Allgemeinen Sonderschulen oder in Integrationsklassen der Sekundarstufe I unterrichtet werden.

Aufbau des Lernprogramms

- Jedem Thema ist ein *Topic Planner* vorausgestellt, der sowohl differenziertes Vokabular und Satzstrukturen als auch ein Verzeichnis der Arbeitsmaterialien enthält. Diese übersichtlichen Raster sollen vor allem eine schnelle und effiziente Planung von Unterrichtssequenzen in Integrationsklassen ermöglichen.

TOPICS

- AUSTRALIA
- NEW YORK - United States of America
- CANADA

STRUCTURE

- LANGUAGE CONTENT
 - Core vocabulary
 - Core structures
 - Extension vocabulary
 - Extension structures
- WORKING PROCEDURE
 - PPP – Input of Information
 - Introduction to vocabulary
 - Listening Comprehension
 - Reading Comprehension
 - Activities - Worksheets
 - Reading Comprehension
 - Oral Exercises
 - Writing Exercises
 - Using a dictionary

Topic

• AUSTRALIA

Language content

Core vocabulary

- aboriginal people, hunters, gatherers, koala, kangaroo, jump, fly

Core structures

- they are..., they live....
- they can..., they cannot

Extension vocabulary

- dreamtime, natives, emu, platypus, furry, bill, claws, pouch

Extension structures

- past tense, passive voice (present)

Working Procedure

Power Point Presentation

- Flag, General knowledge, Map and travel information
- Aboriginal People
- Animals
 - Kangaroo
 - Koala
 - Emu
 - Platypus

Activities

- Information about animals - Reading comprehension
 - Worksheet -- Reading and writing exercise, puzzle solving
 - Worksheet – Solving a flow diagram about Australian animals
 - "Dreamtime story" - Reading and acting

Topic

• NEW YORK

Language content

Core vocabulary

- Statue of Liberty, airport, plane, train, boat, skyscraper, borough ...

Core structures

- You can take You can see ...
- Comparison of adjectives

Extension vocabulary

- Arrival, departure, headquarter, ...

Extension structures

- Passive voice (past), It looks like

Working Procedure

Power Point Presentation

- Flag, General knowledge, Map and travel information
- Skyscrapers
 - Woolworth Building
 - Chrysler Building
 - The United Nations Building
 - The Flatiron Building
 - The Empire State Building

Activities

- Information about skyscrapers-
Researchwork in the internet
- Worksheet – Writing exercise

Topic

• CANADA

Language content

Core vocabulary

- provinces, territories, bear, elk, wolf, fish, goose ...

Core structures

- I know..., I can see...
- Is this....? What is it?

Extension vocabulary

- moose, salmon, skunk, raccoon, eagle, caribou, beaver, reindeer, maple...

Extension structures

- Where can you find...? What does it look like? Have you ever....? How far away is ...?

Working Procedure

Power Point Presentation

- Flag, General knowledge, Map and travel information
- Animals
 - Canada goose
 - Elk
 - Skunk
 - Salmon
 - Grizzly bear

Activities

- Information about animals - Reading comprehension
 - Worksheet – Solving a flow diagram about Canadian animals
 - Worksheet – Using a dictionary - Research work “Animals of Canada”

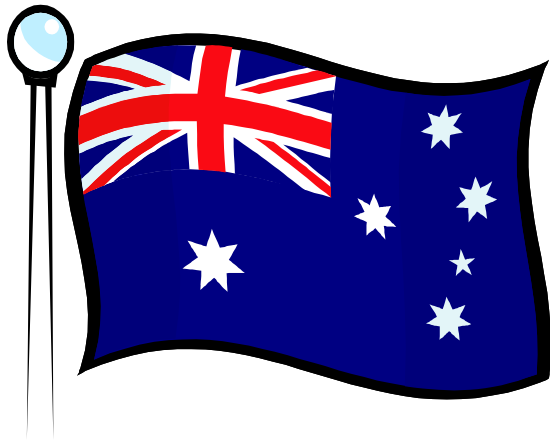

A TRIP TO AUSTRALIA

General Knowledge

Australia is the sixth largest country of the world.

The capital of Australia is **Canberra.**

Australians pay with **Australian Dollars.**

www.thomson.com

Where do you live?
Where is Australia?

Today a trip takes 20 hours.
But in 1770 it took Captain Cook 2 years.

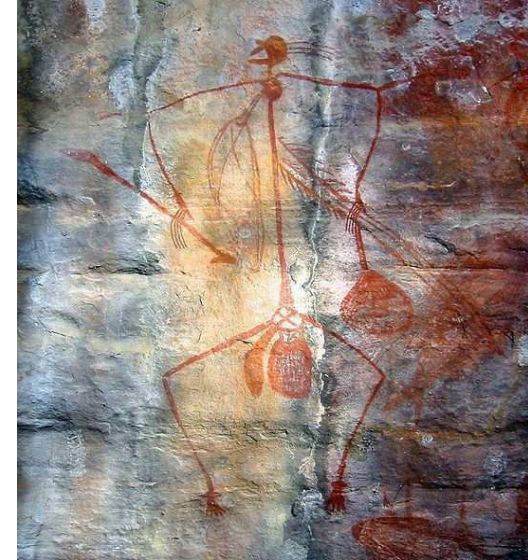

INFORMATION

- Captain Cook and his crew came across the native people of Australia.
- They are called Aboriginal People.
- All of Australia's Aboriginal People are or were hunters and gatherers.

INFORMATION

- Today, up to 30 percent of Australia's Aboriginal people live in cities.
- Art is very important for Aboriginal culture.

EMU

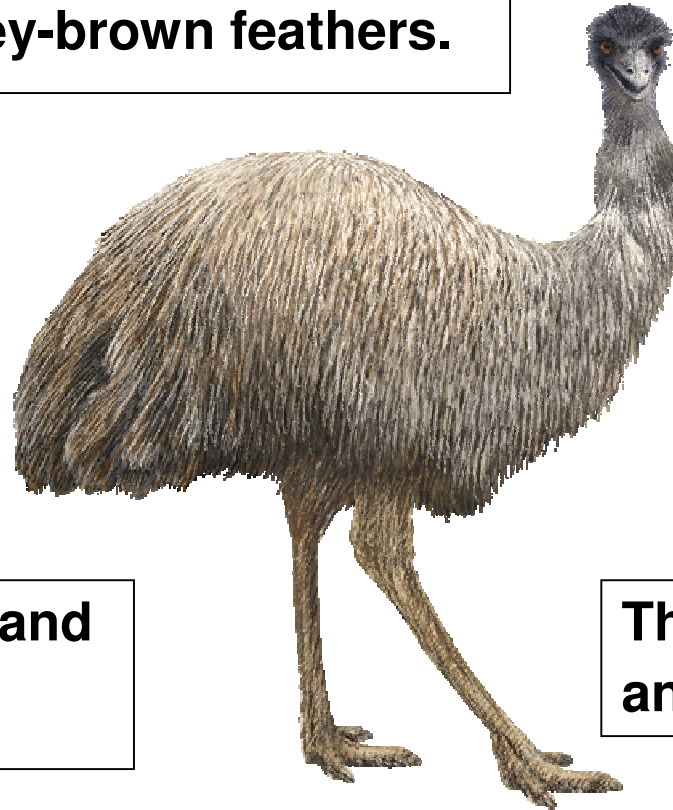

A bird that cannot fly!

Emus have long, thick, grey-brown feathers.

Their eggs are dark green and weigh up to 800 grammes.

Emus live in woods and scrublands.

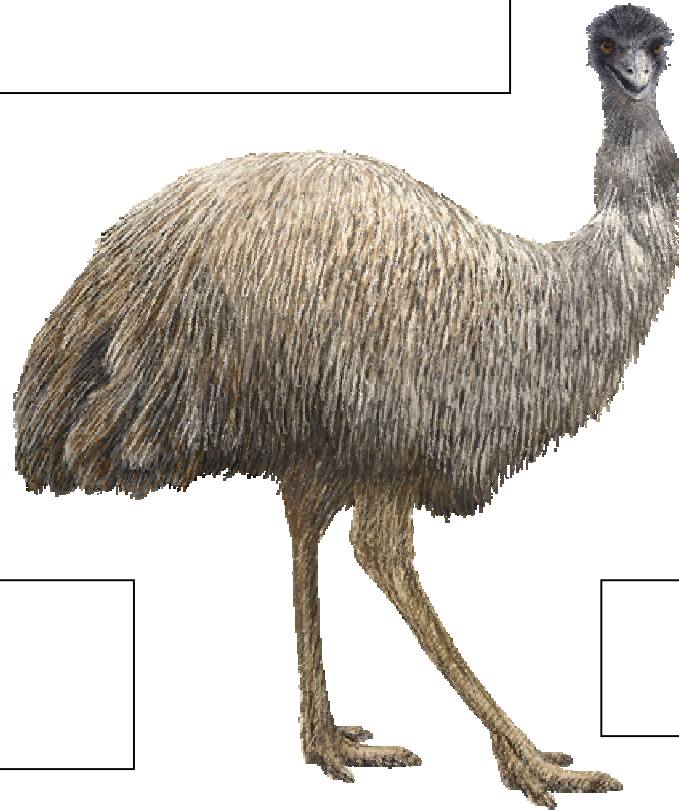

Emus eat grass, flowers and seeds, but also caterpillars and grasshoppers.

They have very long legs and feet with three toes.

They are quick runners - up to 50 kmh!

Emus live in woods and scrublands.

Their eggs are dark green and weigh up to 800 grammes.

Emus eat grass, flowers and seeds, but also caterpillars and grasshoppers.

KANGAROOS

They have a long muscular tail for balance.

They eat grass and shrubs.

Female kangaroos have pouches. The babies live there for about nine months.

Kangaroos have long, powerful back legs.

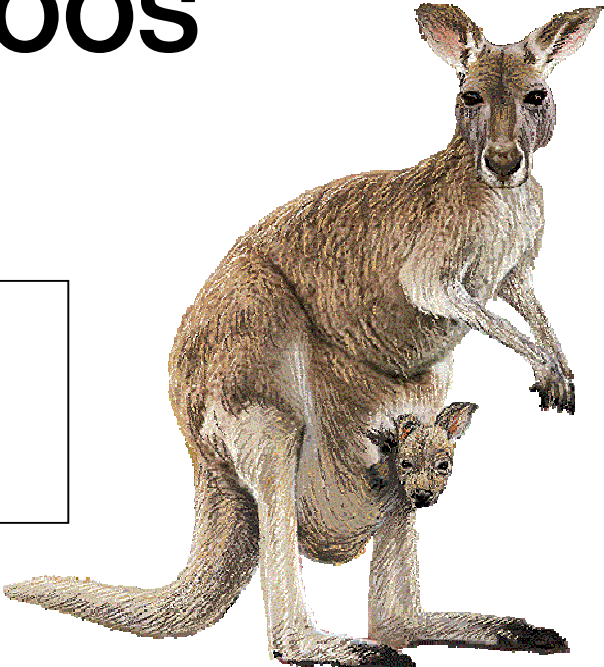

Some kinds of kangaroo live

- in hot, dry places.
- in grasslands.
- in woodlands.
- on cliffs or on trees.

They move by hopping on their back legs.

KOALA

Koalas are furry.

The koala is possibly one of the best known Australian animals and is found in coastal regions of eastern and southern Australia.

Koalas walk on all four legs when walking on

They are no bears!

They only eat leaves of eucalyptus trees.

They hardly ever drink water.

A baby stays in its mother's pouch for a few months after it is born.

The koala has large, sharp claws.

The word '*koala*' comes from an Australian Aboriginal word meaning 'no drink'.

ANIMAL QUIZ

Read and act out the story!

Dreamtime Story

(Adapted from a SEN – language seminar)

Mother Kangaroo and her lost baby

In the morning Mother Kangaroo is washing her face at the river.

Suddenly she shouts, “Where is my baby? It`s not here.”

She is very sad and asks the koala up in his tree, “Have you seen my baby?”

“No, I haven`t”, says the koala and falls asleep.

Then she asks the emu, “Have you seen my baby?”

No, I haven`t “, says the emu and walks away.

Mother Kangaroo is very sad.

She asks the platypus, “Have you seen my baby?”

“Yes, I have, I saw it with the crocodile baby”

“My goodness”, Mother Kangaroo shouts and runs to the river.

There it is – having breakfast with the crocodile family.

Mother Kangaroo is so happy and kisses her baby.

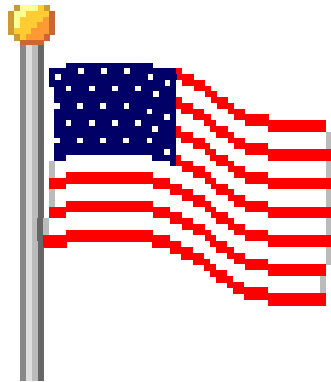

A TRIP TO THE USA

General Knowledge

The United States of America are the third largest country of the world.

The capital of the United States of America is **Washington, D.C.**

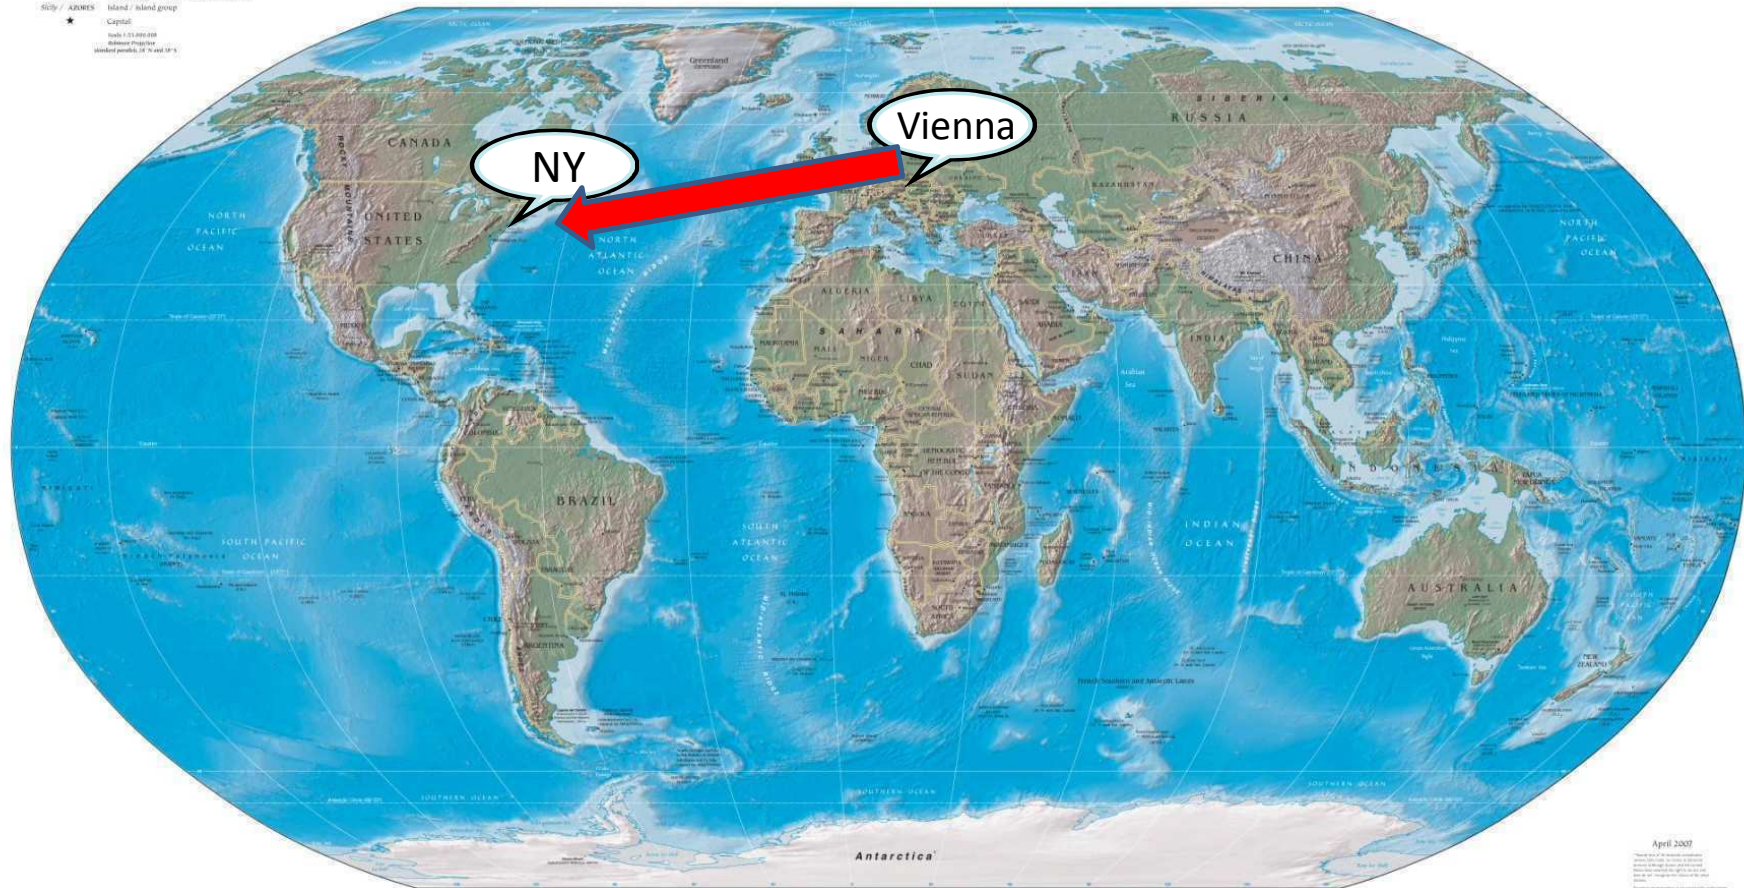

Americans pay with **US- Dollars (\$).**

Where do you live? How do you get to?

Arrival at JFK-Airport in NY

Manhattan and its skyscrapers

The Woolworth Building looks like a Gothic church - a temple for shopping.

It was built in 1912.

Manhattan and its skyscrapers

The Chrysler Building has a lot of car elements.

Manhattan and its skyscrapers

The United Nations Building - one of the UN headquarter buildings

Manhattan and its skyscrapers

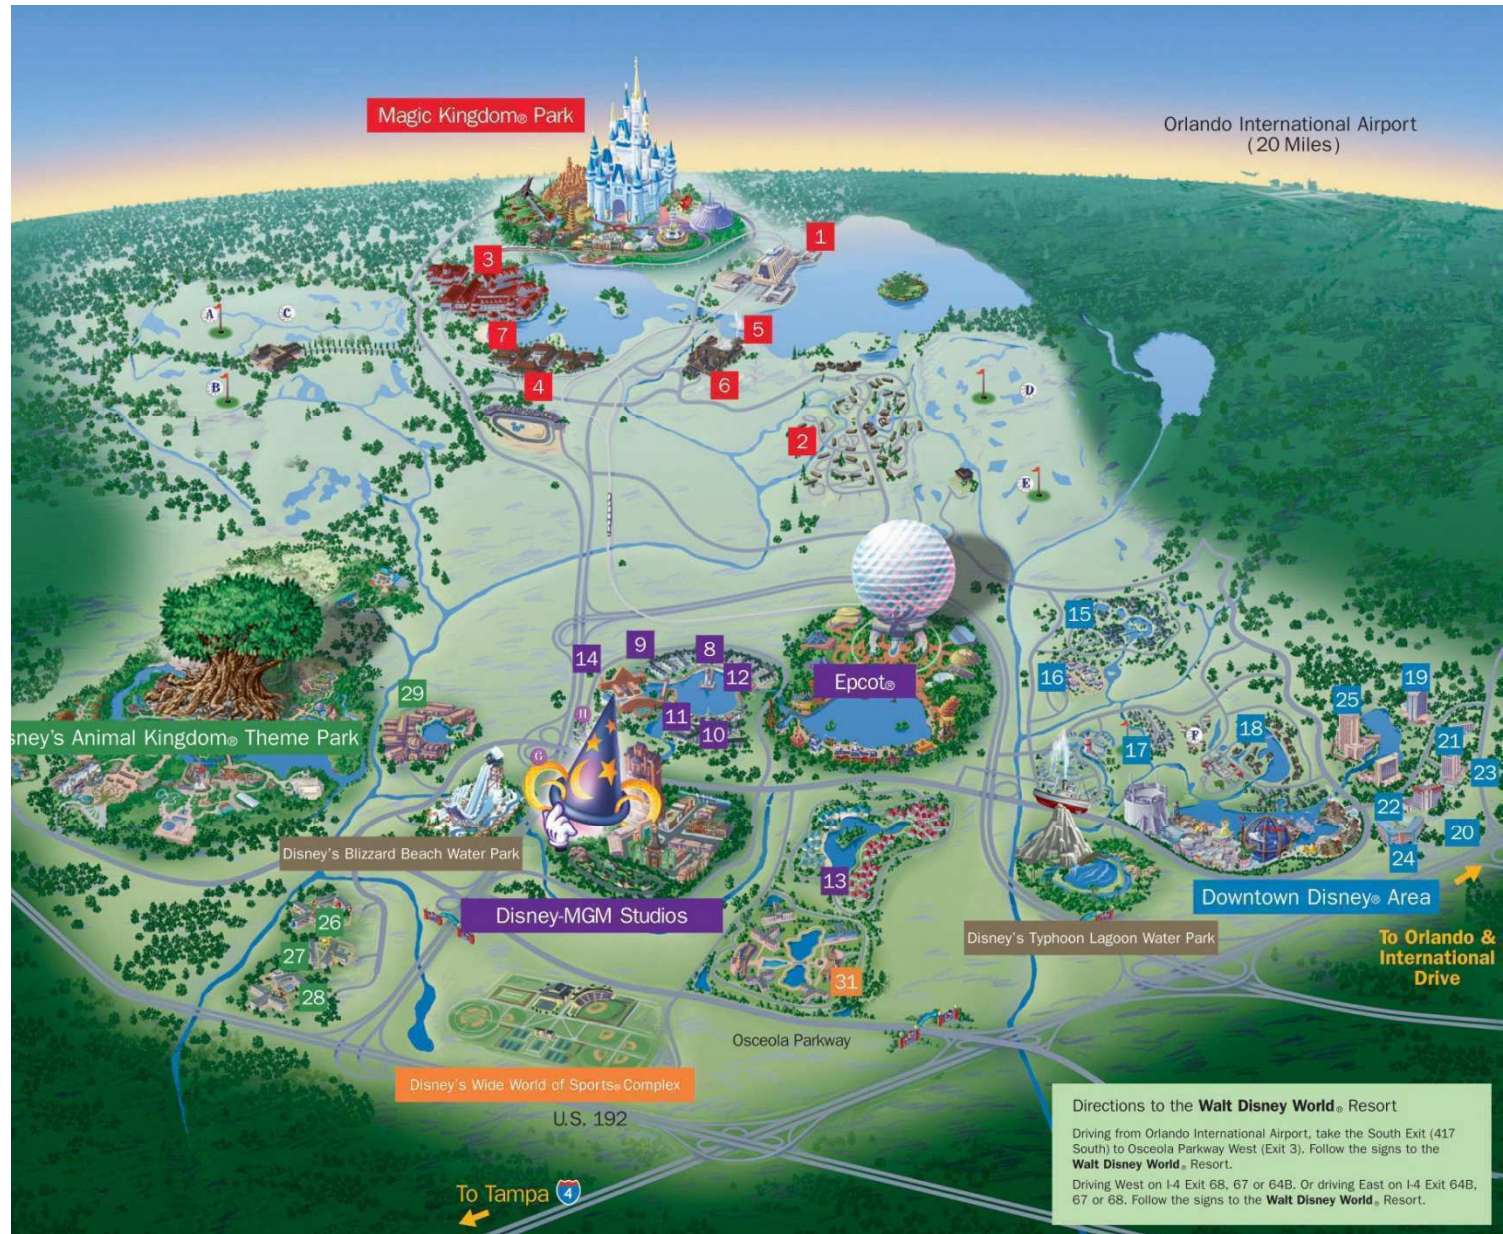

The Flatiron Building - the oldest skyscraper - looks like an iron.

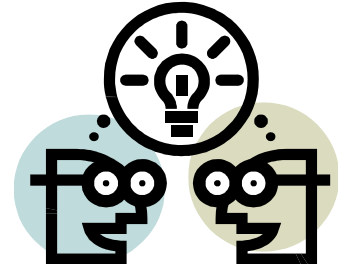

The Empire State Building - for a long time the tallest building in the world

A trip to Disney World in Florida

A Trip to New York

Faster or slower?

The aeroplane is _____ than the train.

The train is _____ than the plane.

The aeroplane is _____ than the boat.

The boat is _____ than the plane.

From highest to lowest!

The Flatiron Building is 87 metres high.

The Empire State Building is 381 metres high.

The Woolworth Building is 241 metres high.

The Chrysler Building is 319 metres high.

Now let`s compare!

The Empire State Building is _____ than the Chrysler Building and the _____ .

The Flatiron Building is _____ than the Woolworth Building.

The highest skyscraper is the _____ .

When were these buildings built? How high are they?

Match the names with the pictures. Use the Internet!

When were these buildings built?	BUILDING		How high are they?

H & H Bagels
2239 Broadway
NEW YORK
NY 10024

Variety of Bagels

Plain, onion, poppy, garlic, sesame, pumpernickel, whole wheat, cinnamon-raisin, salt, sour dough, blueberry, and everything bagels

Price:

\$14.40 (USD) for each dozen

How much do you pay for

3 dozens?

4 dozens?

6 dozens?

Study and play:

Salesperson: Next please! What can I do for you?

Customer: Half a dozen of plain bagels.

Salesperson: Here you are, 7.20, please.

A TRIP TO CANADA

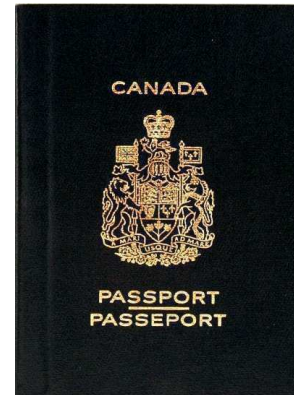

General Knowledge

Canada is the second largest country of the world.

The capital of Canada is **Ottawa.**

Canadians pay with **Canada Dollars.**

Elk (Wapiti)

Height:

about 1.5 m at shoulders

Weight:

Adult males about 450 kilos; females about 230 kilos

Antler length: up to 1.5 metres (from point to point)

Lifespan:

Up to 15 years, 25 years in game reserve

Females live in herds, calves are spotted.

Diet: grass, leaves, chestnuts, fruit, tree sprouts, moss,

The elk is of great importance to American Natives. Medicine Men often carry the elk in their name.

Canada Goose

Body length:

up to 1 metre

Weight:

about 6.5 kilos

Wingspan: up to 1.7 metres

Lifespan:

Up to 10 years, 33 years (record!) in game reserve

During the night they stay in the water and fly in the morning and evening hours in V-flight formation.

Diet: grass, marsh- and water plants

Canada geese mate for life, 5 to 6 eggs per nest.

Salmon

Size:

up to 1 metre

Weight:

Up to 25 kg

Lifespan:

4 to 6 years

Migratory fish

- 1) Salmon migrate from salt water to lay their eggs upstream in freshwater rivers. They leap up waterfalls or swim through fish ladders.
- 2) Young salmon grow up in freshwater and then migrate to the sea (takes up to three years).
- 3) They stay in the ocean (salt water) for 2 to 4 years. Then they migrate back to the freshwater rivers where they were born.

Skunk

Size:

head and body up to 50 centimetres, tail up to 40 centimetres

Weight:

Up to 4,5 kg

Lifespan:

5 to 6 years

Predator, eats plants and meat (=omnivore).

Black and white fur

Habitat: Skunks live in dens. They usually live alone and sleep during the winter.

When a skunk is attacked it can spray a very foul-smelling liquid on the attacker.

Height:

about 1,5 m at shoulders

Weight:

Adult males about 500 kilos; females about 200 kilos

Top speed:

50 km per hour

Lifespan:

20 - 25 years

The Grizzly Bear

The grizzly bear is a large predator.

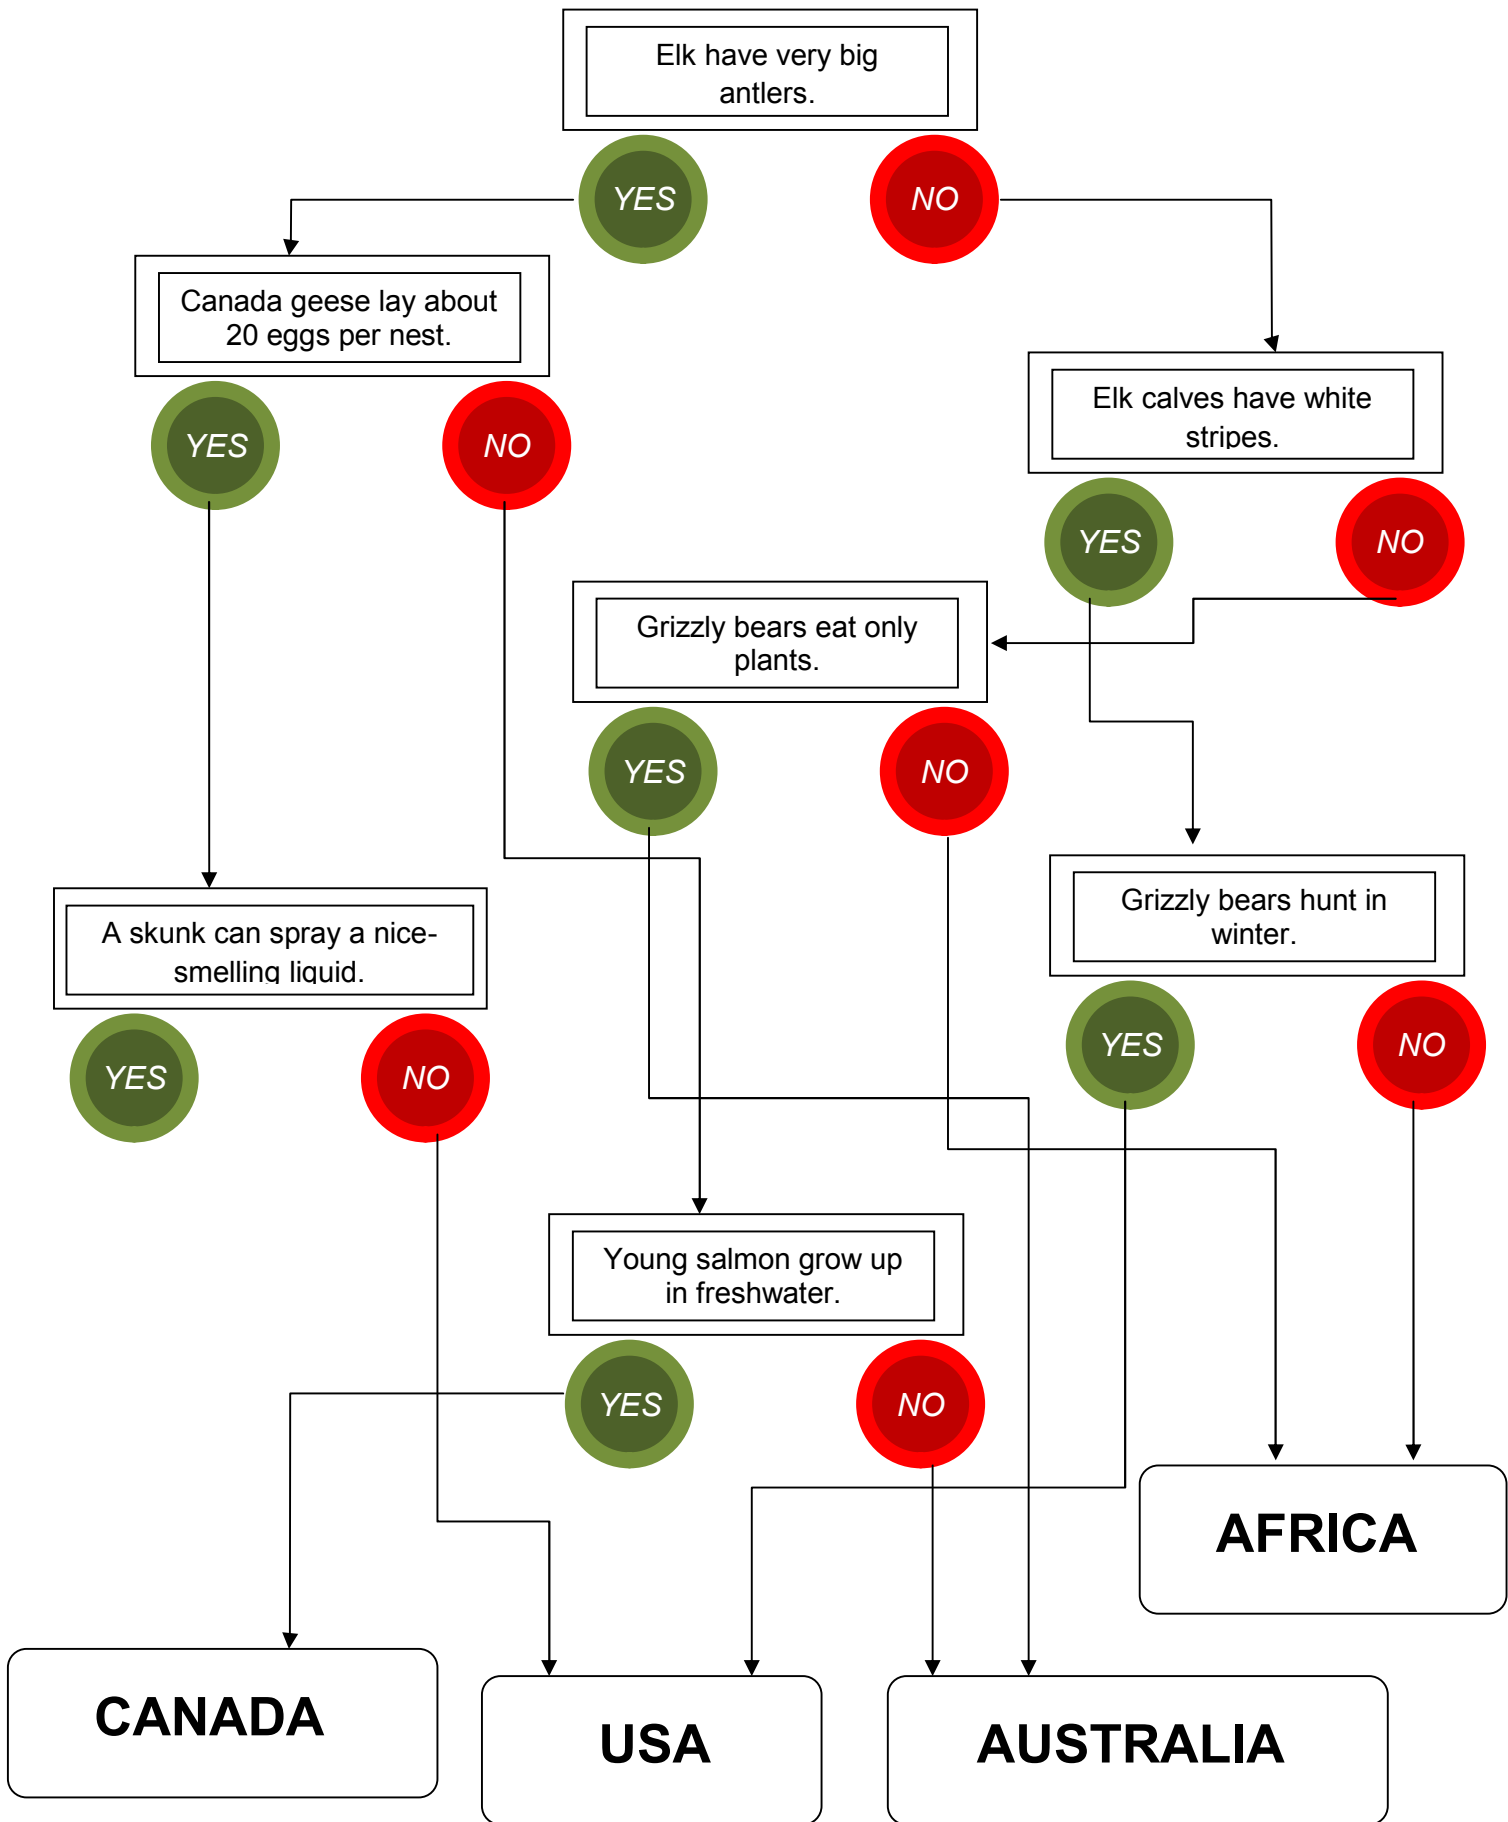

Grizzly bears eat both plants and animals. They like roots, berries, insects, fish and small and large mammals.

Grizzly bears need to eat a lot in the summer and autumn in order to build up fat reserves for the winter period. They hibernate during the winter for 5-8 months.

Grizzly bears can smell food from miles away.

Grizzly bears live solitary lives.

ANIMAL QUIZ

RESEARCH WORK

Canadian Animals

Animals live all over Canada. Some live in trees, in the mountains, in the water or in the air.

***Where can you find these animals?
You can use a dictionary!***

mountain lion	eagle	squirrel	elk
grizzly bear	rabbit	wolf	salmon
skunk	raccoon	Canada goose	beaver

Forest Animals	
Tree Animals	
Water Animals	
Air Animals	
Mountain Animals	

Mountain Animals	Air Animals	Water Animals	Tree Animals	Forest Animals
mountain lion, grizzly bear	eagle, Canada goose	beaver, salmon	Squirrel, raccoon	squirrel, wolf, skunk, raccoon, rabbit, beaver
